Product Description

Tomato sauce is a kind of sweet and sour juice prepared by frying tomato paste with sugar, vinegar and salt in salad oil. Tomato sauce is reddish-brown, sauce-like, delicate in texture, sweet and sour in taste and slightly spicy. It is mainly used in western food, such as tomato sauce on fried pork chops and some cold dishes, or in tomato oxtail soup, tomato shrimp, etc. Tomato sauce is best packaged in glass bottles and stored in a ventilated and dry place. The storage environment should avoid heat and humidity.

The biggest difference between tomato sauce and tomato sauce is that tomato sauce can be eaten directly, while tomato sauce must be cooked.

product name	Salad dressing + PP bottle
Specification	350g
